BI & Visualization: Tableau | Tableau Public | Power BI | dashboard development | data visualization | data storytelling

Business Analysis: KPI analysis | trend analysis | data validation | root-cause analysis | process improvement

IT Support: Technical support | hardware troubleshooting | software installation | software troubleshooting | printer support | user support | ticket handling | issue resolution | technical documentation

PROFESSIONAL EXPERIENCE

Business Upscalers | Data Analyst / Business Analyst | Katy, TX, USA **2025-2026**

- Review, organize, and analyze business data in spreadsheets and digital tools to support reporting and operational decisions.
- Build and maintain KPI reports using Excel, Power Query, and dashboard tools while checking data quality and consistency.
- Summarize trends and findings clearly for stakeholders and support process-focused decisions.

Amazon LLC HOU6 | Fulfillment Associate / Picker & Packer | Katy, TX, USA **2025-2026**

- Pick, scan, pack, and prepare customer orders in a high-volume fulfillment environment while following standard work, quality, and safety procedures.
- Use warehouse scanning systems to verify products, labels, and order information, maintaining accurate processing while working toward required productivity goals.
- Keep the work area organized and coordinate with team members and support staff when equipment, conveyor, printer, or workflow issues affect operations.

ITFume | Motion Graphic Artist | Islamabad, Pakistan **2022-2025**

- Produced digital assets and motion graphics while managing files, revisions, deadlines, and quality checks across multiple projects.
- Collaborated with team members to clarify requirements, resolve production issues, and deliver accurate work.

Mamango | Video Animator | Toronto, Canada **2019-2022**

- Created and organized animated content while coordinating revisions, digital assets, and project deliverables.
- Applied attention to detail, troubleshooting, and deadline management in a collaborative production environment.

Maxx Pace | IT Support Specialist | Rawalpindi, Pakistan **2017-2019**

- Provided user support for hardware and software issues, helping troubleshoot workstations, peripherals, and common technical problems.
- Installed and configured software, supported printers and system maintenance, and helped users resolve day-to-day technical issues.
- Recorded support requests, documented resolutions, and communicated technical information clearly to users and teams.

DATA ANALYTICS PROJECTS

Hotel Booking Cancellation Analysis | Python, SQL, Tableau | [Tableau](#) | [GitHub](#)

- Analyzed 87,396 bookings and 24,025 cancellations to identify trends, drivers, and operational insights.
- Estimated \$11.48M in potential booking value associated with cancellations and presented findings through a Tableau dashboard.

ChemCorp Business Analytics Case Study | Tableau | [Tableau](#) | [GitHub](#)

- Built dashboards covering revenue, profitability, product performance, and sector trends to support business analysis and storytelling.

AEMR Energy Analysis | Tableau, Excel | [GitHub](#)

- Analyzed outage frequency, energy loss, and outage duration and developed reliability-focused recommendations.

EDUCATION

Bachelor's Degree in Software Engineering
National University of Modern Languages (NUML)

2014-2018
Islamabad, Pakistan
